## □ About Taylor & Francis Online Journals

- 주제분야 : 전주제
  - 인문/사회, 자연과학/공학, 의학/보건, 심리학, 경제경영, 교육, 지리학, 환경 등
- 제공 패키지 (2018년 12월 기준)
  - Full Package : 2,210종
  - Social Science & Humanities Package (SSH Package) : 1,477종
  - Science & Technology Package (ST Package) : 533종
  - Medical Package (Med Package) : 200종
  - Fresh package : 110종
- 원문정보 제공연도 : 1997~현재
- 2017 SCIE - 556종 / SSCI - 565종 / A&HCI - 239종
  - Advances in Physics (물리학) : IF 30.917
  - Psychological Inquiry (행동과학) : IF 26.364
  - Autophagy (환경 및 농업) : IF 11.1
  - Critical Reviews in Biotechnology (생명공학) : IF 5.239
  - Educational Psychologist (교육심리학) : IF 4.488
- 제공서비스 URL : <https://www.tandfonline.com/>
- T&F 저널 소개 동영상 : <https://www.youtube.com/watch?v=FHXRJu1DKM4>

## Advanced search

### Search help **검색팁**

#### Exact match supported for author search results

You can perform an exact author search by enclosing the name (first and/or last) of the author in quotation marks.

#### Boolean operators

The Boolean operators AND, OR, and NOT can be applied to search terms.

#### AND (also + or &)

Use AND to search for documents containing two or more terms. For example, the following query returns documents containing both cat and dog:

cat AND dog

The AND operator is applied by default; for example cat AND dog produces the same results as cat dog.

#### OR

Use OR to search for documents containing at least one of two or more terms. For example, the following query returns documents containing cat, dog, and documents containing cat and dog:

- 1) 검색어 입력 - 타이틀명, 키워드, 저자 (+ 표시 클릭 시 검색어 추가 가능)
- 2) 출판일자 선택
- 3) 인용 검색

Use NOT to search for documents that do not contain a given term. For example, the following query returns documents containing cat but not containing dog:

cat NOT dog

# □ 검색결과

The image shows a search engine interface with a search bar containing 'Physics'. The results page displays 'Your search for All: physics' with 1-10 of 1,549,827 results. A sidebar on the left allows for refining the search by subject, published in, and publication date. The main results area shows three articles, with the first one highlighted. Annotations in yellow boxes explain the 'Save this search' button, the article list, and the detailed information provided for each article. A bottom annotation explains the search filters and the search button.

### Abstract

Inverse problems are ubiquitous in science and engineering. In particular, high-throughput data sets to which the inverse problem is applied are often noisy and incomplete. In this paper, we consider the inverse Ising problem, including the inference of gene regulatory networks, controlled and uncontrolled. A particular example is the inverse Ising problem based on non-equilibrium statistics.

## Reflecting on 40 years of Maritime Policy & Management

Introduction  
 HEATHER MCLAUGHLIN

### Menu bar

- 스크롤바를 내리면 상단에 고정됨
- 본문 내용이 시작되는 부분에서 상세메뉴가 아이콘화되어 바로가기 가능

In this Special Issue, we reflect on the 40 years that we have made a significant contribution to their own research and maritime practitioners through their founding editorship through that of James McConville published by Taylor & Francis in Alderton, West Yorkshire. Professor Trevor Heaver on ports and ship operations and have a continuing association with the journal as reviewers and contributors.

The journal *Maritime Policy & Management (MPM)*, the flagship journal of international shipping and port research, now has well over 500 international reviewers, publishes seven issues a year and is read by thousands of academics, maritime practitioners, government officials and journalists around the world through online subscriptions. Last year, we obtained our first impact factor (0.743) in the Transportation category of SSCI, which has led to a dramatic increase in submissions.

It would be remiss of me if I did not use this issue to express my sincere thanks to everyone involved in the journal's long history and continued success—authors, reviewers, administrators, editors and editorial board members. We are also grateful for the administrative support from a number of universities, and particularly to Chung Ang University, where the journal currently resides with my co-editor, Professor Kevin Li. Finally, a sincere thank you to our publishers, Taylor and Francis, for their professionalism and encouragement over the last 40 years.

The Origins of *Maritime Policy & Management*  
 JAMES MCCONVILLE
